

ADVANCED TROUT FISHING CLINICS WITH THE EXPERTS

Learn the intricacies of entomology and reading the water, stepping up to advanced tactics and increasing your catch rate exponentially. Spend a weekend on a first class private fishery brimming with beautifully conditioned trophy fish. These clinic weekends will cover everything from perfecting your casting, line and fly selection, rigging leaders and teams of flies. You will fish under the close supervision of hugely knowledgeable guides in small intimate groups. In the evenings the guides will prepare sumptuous meals, in excellent farm house style accommodation. For those not exhausted by a day in the sun catching magnificent fish, entomology discussions, fly tying and slide shows will be enjoyed while sipping a glass of the good stuff.

Itinerary:

- Arrive Friday afternoon/evening. Should your arrival time allow it, you will fish the evening rise and get warmed up for the weekend. Otherwise simply enjoy a leisurely meal and discussions on the weekends plans and clinic talks.
- Saturday morning, rise at dawn, excellent filter coffee and rusks and straight onto the water. Fish hard until mid morning, and enjoy a massive full english brunch. Tackle talks and try outs and preparation for the afternoon session. Fish the evening rise and more than likely photograph your personal best trophy trout.
- Sundowners back at the vehicles, overlooking your very own private property for the weekend, an excellent evening meal along with further talks and slides.
- Sunday morning, up at sunrise, coffee and rusks, and a mornings fishing putting your newfound knowledge and skills to good use. Leisurely brunch and depart at your convenience.
